## **Work Experience**

|   |                   |
|---|-------------------|
| University of Queensland, Australia                       | Mar/2021-Dec/2024 |
| Postdoctoral Research Fellow                              |                   |
| Supervised by A/Prof. Loic Yengo and Prof. Peter Visscher |                   |
| GeneDock Inc., China                                      | Apr/2016-Mar/2017 |
| Bioinformatics engineer                                   |                   |

## **Education**

|   |                    |
|---|--------------------|
| University of Queensland, Australia                   | Apr/2017-July/2021 |
| Ph.D., Quantitative Genetics                          |                    |
| Supervised by Prof. Jian Yang and A/Prof. Allan McRae |                    |
| Shanghai Jiao Tong University, China                  | Sep/2012-Dec/2015  |
| M.S., Biochemistry and Molecular Biology              |                    |
| Supervised by Prof. Kankan Wang                       |                    |
| Zhejiang University, China                            | Sep/2008-Jun/2012  |
| B.S., Pharmaceutical Sciences                         |                    |

## **Conferences**

1. Pitfalls in estimating SNP-based heritability for singleton genetic variants, Cold Spring Harbor Laboratory – “Biology of Genomes” meeting 2024, New York, USA.
2. Quantification of the contribution of ultra-rare coding variants to trait heritability (oral presentation), UQ Centre for Genetic and Genomics Symposium 2022, Brisbane, Australia.
3. Quantification of the contribution of ultra-rare coding variants to trait heritability (oral presentation) , UQ Early Career Researcher Symposium 2022, Brisbane, Australia.
4. Quantification of the contribution of ultra-rare coding variants to trait heritability (oral presentation and runner-up award for oral presentation <5 years post PhD), GeneMappers Conference Virtual 2021.
5. Integrating the genetic and environmental information to improve the phenotype prediction for body mass index (Poster presentation). The 6th International Conference of Quantitative Genetics Virtual 2020.
6. Genotype-by-environment interactions inferred from genetic effects on phenotypic variability in the UK Biobank (Poster presentation). Gorden Research Conference Quantitative Genetics and Genomics 2019. Tuscany, Italy.

7. Quantifying the inflation in test-statistics for epistasis due to imperfect tagging using whole-genome sequence data (lightning talk). GeneMappers Conference 2018. Queensland, Australia.

### **Peer review**

For Nature Genetics (1 manuscript), Nature Communications (4), Science Advances (1), American Journal of Human Genetics (1), BMC Medicine (1), G3: Genes, Genomes, Genetics (1), and Bioinformatics (1).

### **Teaching**

1. Navigating the UK Biobank Research Analysis Platform, 1<sup>st</sup> Australian UK Biobank Symposium, 2024, Brisbane, Australia.
2. Prediction accuracy and pitfall, UQ Genetic and Genomics Winter School, 2022 and 2023, Brisbane, Australia.

### **Supervision**

1. Literature review course for a master student, BIOX7100 2024, UQ
2. Research project course for an undergraduate student, SCIE3220 2018, UQ

### **Service**

1. UQ IMB Early-Mid Career Researcher Association (EMCRA) committee member, 2023 and 2024
2. UQ IMB Centre for Population and Disease Genomics (CPDG) teaching workshop coordinator, 2024
